

GANGLIOSIDE-KLH C NJUGATE VACCINES PLUS QS-21

Abstract of the Invention

5 This invention provides a vaccine for stimulating or
enhancing in a subject to which the vaccine is
administered, production of an antibody which recognizes
a ganglioside, comprising an amount of ganglioside or
oligosaccharide portion thereof conjugated to an
10 immunogenic protein effective to stimulate or enhance
antibody production in the subject, an effective amount
of adjuvant and a pharmaceutically acceptable vehicle.
